To Whom It May Concern:

I am a dedicated, passionate youth specialist seeking gainful employment in the Human Services field.

Through my previous work experience, I have developed a personal commitment to helping at-risk youth of all backgrounds succeed through mentorship and experiential learning outside of the traditional classroom environment. I have witnessed first-hand the value of positive adult influence in the lives of youth as it pertains to serving the whole individual, building self-esteem, instilling meaningful values, and exposing youth to opportunities they would have never experienced otherwise.

I have been given positive feedback from school officials, parents, teachers, colleagues, and community partners on my ability to build interpersonal, meaningful relationships with youth and families, and hope to continue to make an impact on an individual and community level, particularly with impoverished or marginalized populations.

I have two years of administrative experience and program management, which included payroll management, data tracking, grant compliance and auditing, and supervision of staff.

While I currently live in North Carolina, I am a Philadelphia native looking to move back to the area to pursue a Master's degree in Social Work within the next two years. I am confident that my background in youth program management and passion for community development will be a valuable asset to your organization, and I look forward to the opportunity to discuss this position further. Thank you for your time and consideration.

Warm regards,
Maureen Adamson
