CORA Services
8540 Verree Rd
Philadelphia, PA 19111

To whom it may concern,

I am writing in response to my application for the speech language therapist position posted for CORA Philadelphia. I have attached my resume for consideration. My clinical practicum experience includes the opportunity of treating children across a wide range of ages and diagnoses, in addition to treating in distinct settings such as telepractice. This includes the amazing experience of interacting with school-aged children and young adults with moderate-severe diagnoses of Autism Spectrum Disorder at The Timothy School in Berwyn, Pennsylvania. My most recent clinical practicum included traveling to six different elementary and middle schools throughout Montgomery County Intermediate Unit. Not only did I have the opportunity to evaluate and treat fluency, articulation, and language disorders in school-aged children, but I had the chance to treat unique populations such as severely learning disabled children in a specialized setting.

I am a hard worker who will not stop until the job is done correctly. I love interacting with people and look forward to building relationships with colleagues so we can work as a team unit to help children reach their full potential. I truly care about improving the wellbeing of those I come in contact with and I would love nothing more than to have the opportunity to work in Philadelphia through CORA!

I am truly passionate about being a speech language therapist. After completing a rigorous graduate school program and four clinical practicums, I feel that I am fully prepared and eager to start my career facilitating change in the lives of children in Philadelphia.

Sincerely,
Melissa Clark
