

June 7, 2018

To Whom It May Concern:

I have had the pleasure of working with Ms. Remus at the League School and Day Treatment Center from April of 2014-February 2018. During her first year at the League School, I supervised Ms. Remus as she completed her clinical fellowship year. As her supervisor for that year and three subsequent years, I have had the opportunity to observe her clinical and professional skills in a variety of contexts.

In her position as Speech Language Pathologist, Ms. Remus was responsible for providing ongoing assessment and treatment for children ages 5 through 21, writing and submitting session notes, report cards, IEP goals, and annual reports in a timely manner, and participating in the screening protocol for prospective students. She engaged in daily interactions with teachers and clinical staff members and was an active participant during interdisciplinary team meetings.

During her time at the League School, Ms. Remus honed her behavior management skills, referring to behavior treatment plans and working collaboratively with the interdisciplinary team in order to help each student meet his/her goals. She presented as a calm, caring, and driven clinician who was thoughtful and consistent when implementing therapy plans. She frequently went 'above and beyond', providing creative and evidence-based treatment. Ms. Remus established positive rapport and relationships with students and staff and demonstrated professionalism in all facets of her position, particularly with respect to deadlines and scheduling. Her written work was concise and accurate. Her reports and session notes reflected thoughtful observations as well as integration of formal and informal data. Ms. Remus has shown herself to be a flexible and collaborative clinician time and time again.

At all times, I have found Ms. Remus to be a reliable, reflective and collaborative clinician who excelled in her role at the League School. Her presence will be sorely missed, as she regularly exhibited perseverance and a positive attitude in an environment which, at times, can be extremely challenging. I am confident that Ms. Remus' skills would be a tremendous asset to your establishment and would highly recommend her for this position.

Sincerely,

---

Melony Lenhardt M.S., CCC-SLP  
Speech-Language Pathologist
