CORA Services  
8540 Verree Road  
Philadelphia, PA 19111

Dear Human Resources Representative:

My name is Ariel Fuchs and I am applying for the Prevention Education Specialist position with CORA Services. I am excited to find this position posted and I feel that my professional experience and passion for working in the prevention field with the community make me a qualified candidate for this position.

As a Primary Prevention Health Educator at a non-profit behavioral health agency, I successfully implemented community-based drug and alcohol prevention programs into four K-8 school communities. I built and maintained relationships with stakeholders including principals, teachers, students, staff in the Livermore Joint Unified School District, and Alameda county. I served as a liaison between my agency, Axis Community Health, and the schools and community we served. I ran and facilitated evidence based drug and alcohol prevention programming for youth and the community, including drug and alcohol prevention, and tracked the progress and outcomes. I stayed updated on current drug policies locally and nationally to maintain current knowledge, and used this to inform prevention programs for teachers, parents, and youth in the community. I traveled regularly to different schools and community sites to provide prevention services.

As an Integrated Health Navigator at Jewish Family & Children's Services, I worked with individuals to provide health education and navigation services. I regularly worked with provider teams to coordinate care for families and individuals. I worked directly with clients and in group settings to provide resources to help people meet their health and medical needs. I have worked with people from a variety of different backgrounds including low-income, African American, Latina/o, Native American, refugee, and immigrant populations. I believe my experiences working with individuals on health and medical needs, and experience with drug and alcohol prevention services will allow me to contribute positively to CORA Services.

I look forward to being part of an impactful agency that cares about prevention and serving the community. Thank you for taking the time to review my application. I would appreciate an opportunity to discuss my experience further. Please feel free to contact me at 917-533-4182 or fuchs.ariel@gmail.com.

Sincerely,

Ariel Fuchs
