To Whom it May Concern,

I am writing you today regarding the potential Adolescent Substance Abuse Case Manager position at CORA. I was thrilled to see this position open because I believe this position would be a great fit considering my education, passion and future career goals.

I am a recent graduate from the Philadelphia College of Osteopathic Medicine, Master of Science in Mental Health Counseling program with a concentration in addiction counseling.

Through my coursework in mental health counseling, I have found an interest and passion in working with and helping adolescents and adults with developmental and intellectual disabilities and co-occurring mental health illnesses. I recently completed my practicum and internship at Monte Nido & Affiliates- Eating Disorder Center of Philadelphia- in Villanova, PA. While there I was tasked with running daily therapy groups, consisting of DBT skills, coping skills, emotional and behavioral regulation, exposure and family therapy. I also participated in meal support, attended team meetings, collaborated with other professionals, completed necessary clinical notes and provided client support and feedback. Throughout my time at Monte Nido I have developed and demonstrated the necessary skills to implement appropriate and efficient client support for our PHP and IOP clients. For example, my experience includes working under the Cognitive Behavioral, Dialectical Behavior, Acceptance and Commitment, and Family Therapy models. I firmly believe that my dedication, experience, and clinical knowledge will provide me with the necessary skill to be an energetic and passionate asset to this team.

As noted in my resume, my experience working as a Speech Language Pathologist Assistant with clients on the Autism Spectrum of all ages, only further demonstrates my direct client care skills as well as my case management skills. I consistently held a 20+ client caseload as well as a 100% productivity level. My unique repertoire of clinical experience has allowed me to develop interpersonal, and organizational skills needed to succeed in a clinical setting. In total, I believe my diverse and extensive background will allow me to succeed as part of your team.

I would greatly welcome the opportunity to meet and interview with you. Please contact me at Zoekahn18@gmail.com Thank you for your consideration and time. I look forward to hearing from you.

Sincerely,
Zoe Kahn
