SKILLS

I am an organized, team leader, and flexible. I have always been passionate about working with kids and making a positive impact on the life of a child. When I was in 8th grade, I volunteered at my grade school's after school program. In high school, I began working as a summer camp counselor for one of the city's recreation centers. I have enjoyed my summers being a positive role model for students ever since. Most recently, I have been promoted as a Recreation Specialty Instructor (RSI) for that same camp and I enjoy the leadership responsibilities that come along with being an RSI.
