CORA Northeast Services  
8540 Verree Road,  
Philadelphia, PA 19111

To whom this may concern:

I would like to express my strong interest in the position as a Speech-Language Pathologist at CORA Services, as listed on [coraservices.org/jobs](http://coraservices.org/jobs). This May I will receive my Master's degree in Speech-Language Pathology from Molloy College. I have had multiple opportunities to work with children and adolescents with neurodevelopmental and acquired disorders which have affected their cognitive, speech, and swallowing mechanisms. I believe my experience, skills, and passion for this population is what would make me an excellent addition to the CORA family. In addition, after spending four years in Philadelphia as an undergraduate student, I was planning on returning to Philadelphia. This position at CORA would satisfy both my career and personal goals.

Your job listing states that the Speech-Language Pathologist will work with teachers, families, and other professionals. I strongly believe that communication and collaboration is a key component in the diagnosis and treatment of the pediatric population. At Beechwood NeuroRehab, I attended annual meetings with caregivers, care coordinators, and other therapists to provide updates regarding clients' courses of therapy and collaborated with paraprofessionals to implement various therapy strategies in clients' everyday lives. At Hempstead Middle School, I attended annual IEP meetings and collaborated with students' parents and teachers daily. These meetings gave me valuable experiences on how to communicate with other professionals and students' families.

I am looking forward to utilizing the knowledge I have gained from my professors, clinical experiences, and continuing education courses at my future place of employment. If you think I could add value to CORA Services, please contact me.

Respectfully,  
Maureen Hoey
