To Whom It May Concern,

I am honored to recommend Ms. Maureen Hoey for a position as a Speech and Language Pathologist. I had the pleasure to supervise Ms. Hoey during her fall clinical internship at The ABGS Middle School in the Hempstead Public School system. Her expertise and exemplary clinical skills set the stage for a highly effective and innovative therapeutic teaching environment.

Ms. Hoey created a nurturing instructional environment for all of the students. She related well to our special needs students and was able to individualize the academic and special needs of every student she instructed. Ms. Hoey planned and implemented creative and engaging lessons. She was able to align therapy goals to appropriately address the common core standards. Ms. Hoey was able to tailor her lessons to address the students' individual needs and interests at a mastery level.

Ms. Hoey was devoted to advocating for her student's needs and moving her students along the therapeutic continuum. She had an impressive grasp on student assessment, progress monitoring and response to intervention methods. She also demonstrated effective classroom management skills.

I am confident that Ms. Hoey would be an excellent candidate for consideration in any position as a Speech and Language Pathologist. She will continue to excel in all of her endeavors. Her dedication and perseverance are evident in all that she pursues.

Sincerely,

Sharon Inkles-Offenberg, M.S. CCC-SLP

Speech Language Pathologist
