Hello,

The role of Intensive Prevention Services (IPS) Counselor provides early intervention to youth who encounter complex challenges in their social and family settings. As a Licensed Social Worker, I practice systems-centered counseling to assist clients to recognize their inner strengths and capacities and reduce the influence of restricting factors. The formation of strong therapeutic alliances between counselor and client is supported by cooperation and collaboration; these tenets are essential to the success of IPS. Compassion for a youth's situation or circumstances must be paired with sincerity and authenticity.

I have extensive knowledge and some experience in case management services and home and community-based care. I have both executed and taught service planning methods and techniques, as well as logging and charting client interactions accurately and sensitively.

Thank you for considering me for the IPS Counselor position. I look forward to hearing from you soon.

Sincerely,

Dillon DeWitt
