PROFESSIONAL SUMMARY: Seeking a Speech-Language Pathology Clinical Fellowship position. Bringing strong interpersonal skills, proficiency in patient assessment, and therapy execution, I am excited to continue to enrich my education and clinical experience in the profession. Knowledge base includes swallowing, cognitive-linguistic and speech and language disorders.

EDUCATION:	Salus University, College of Education and Rehabilitation	Elkins Park, PA
	Master of Science in Speech-Language Pathology (SLP). <i>Summa Cum Laude</i>	May 2020
	The Pennsylvania State University, College of Health and Human Development	University Park, PA
	Bachelor of Science in Communication Sciences and Disorders	May 2018

GRADUATE CLINICAL EXPERIENCE:

Cooper University Hospital – Camden, NJ

January 2020 – May 2020

- Evaluated and treated adult inpatients in the areas of swallowing, voice, speech, language, and cognition. Caseload included ventilator dependent and tracheostomized patients. Placed and utilized Passy Muir One-Way Speaking Valves. Conducted Videofluoroscopic studies (Modified Barium Swallows) to determine etiology and function of swallow.
- Evaluated and treated adult outpatients with swallowing and voice disorders stemming from surgical and/or radiation treatment of head-and-neck cancer. Caseload included patients who are status post total laryngectomy.
- Evaluated and treated neonatal and pediatric inpatients in the Neonatal Intensive Care Unit (NICU). Developed and implemented strategies for safe feeding including readiness for oral stimulation, appropriate nipple flow rate, safe positioning and pacing.
- Documented evaluations and treatments using computerized system: Epic Electronic Medical Record

Alfred Cramer College Preparatory Lab School – Camden, NJ

September 2019 – December 2019

- Evaluated and treated bilingual children from Kindergarten to Middle school with a variety of conditions. Caseload included children with language disorders, phonological disorders, articulation disorders, fluency disorders, pragmatic deficits, autism spectrum disorder, and attention-hyperactive deficit disorders.
- Participated in and implemented Individual Education Programs (IEP). Educated teachers, parents, and support staff on speech and language needs through phone, email or meeting.

Salus University Speech-Language Institute

August 2018 – August 2019

- Provided individualized speech and language therapy to individuals with aphasia, apraxia, autism spectrum disorder, fluency disorders, cognitive-communication disorders, and speech sound disorders
- Conducted standardized assessments to establish treatment plans for both pediatric and adult populations.
- Documented evaluations and treatments using computerized system: NextGen Healthcare

Breastfeeding Resource Center

May 2019 – August 2019

- Collaborated with other graduate students to plan and conduct a support group that focused on education, parent training, and coaching on various early childhood speech and language topics.

Keneseth Israel Pre-School

January 2019 – April 2019

- Collaborated with other graduate students to plan and conduct group lessons in an after-school language enrichment program.

ADDITIONAL CLINICAL EXPERIENCE:

- Collaborated with faculty from the St. Lucy's School for the Blind, Speech-Language Pathology, Blindness and Low Vision Studies, and Occupational Therapy to plan and conduct weekly camp curriculum for students with visual impairments.
- Participated in a Children's Hospital of Philadelphia stuttering program focused on the tenants of therapy and active engagement through structured activities.
