CORA Services
Early Years- Summer Camp Counselor

To hiring manager,

I'm interested in working your summer program due to my current employment of working with ages k-8. I'm a school aide at McKinley William Elementary school. I have been there for two years now. I monitor, observe and help prevent behavioral problems from escalating in all parts of the school.

The amount of time I spend around the students has taught me to be patient, kind and a problem solver. These three qualities are important when dealing with children from all backgrounds. I have found a growing passion for assisting the youth and guiding them under the school rules and regulations.

This summer opportunity will allow me to gain more experience and interact with a different group of children for a greater cause. I believe all children are unique and can grow up to become amazing role models with proper guidance and tough love from parents, teachers and staff. I hope to speak with you soon.

Thank you
