Early Years Camp

2 Penn Blvd Suite 220,
Philadelphia, Pennsylvania 19144

Dear Early Years,

It has come to my attention the job posting to be a Summer Camp Counselor and I am hoping you would take the time to review my application. Although I do not have any professional experience working with children, I can say that I have worked with teams. I am sure that I can excel in any activity that calls for working in groups or teams and I am sure to exceed expectations as a leader. I can also say that babysitting is something I do quite often and for long periods of time, as I have toddler nieces and nephews. I enjoy working with kids and seeing the joy they get from participating in any activity. As a teenager, I believe I can connect with children and find ways to get them to engage with one another and with any activity.

I've included my resume and although it does not showcase any experience with children, I can assure you that I would give you one-hundred percent every day. I would like to add that at the moment I am a college student at Penn State University and if I were to be considered for an interview or job position, I would need to accommodate when I would be able to meet with you. Thank you for your time and consideration.

Feel free to reach out via email or call me at 267-325-6105. I hope to hear from you soon.

Sincerely,

Oscarina Pichardo
