Cora Services, Inc.  
Philadelphia, PA

To Whom It May Concern:

I am writing to apply for the Prevention Education Specialist position posted on Indeed. This position matches well with my interest and clinical experience. I have extensive experience working with adolescents and adults in a variety of health care settings. I graduated from the Master of Social Work program at the University of Pennsylvania this May. I completed the clinical track with a specialization in health care for my MSW degree. I have obtained license for Social Worker (LSW) in Pennsylvania.

I completed my advanced field placement at DaVita Dialysis, where I successfully utilized my clinical skills to provide psychosocial assessments and service coordination to a culturally-diverse geriatric population coping with chronic illness and disabilities. I have gained the knowledge of community resources and case management essential for working with the patients in your organization. Additionally, my internship at the Intensive Care Nursery in the Hospital of the University of Pennsylvania has enhanced my ability to collaborate with families and multidisciplinary teams to address the psychosocial barriers to patient care.

I am committed to working effectively with patients and their families to improve their quality of life. I am confident that my educational and professional experiences, as well as my motivation and empathy for others will make me a valuable addition to your social work team. I have attached my resume for your review and would welcome the opportunity to meet with you to discuss my qualifications in further detail. Thank you in advance for your time and consideration. I look forward to hearing from you.

Sincerely,

Sitong Liu
