I have over 20 years teaching experience in education that includes a wide range of subjects, including honors math, religious studies, ELA, reading, and science. Most recently I have been employed as the Honors Math Teacher and the Math Curriculum Coordinator.

For the majority of my career, I was the head mathematics teacher for 12 years for grades 6, 7 and 8 as well as the 6th grade ELA teacher at Our Lady of Good Counsel, a private Catholic grammar school in Staten Island, New York. In my most recent opportunities, I have been afforded the position of Math Honors Teacher and the Math Curriculum Coordinator at both St. Christopher's School and St. Albert the Great School, respectively.

I took a brief pause in my full time teaching career. However, I continued teaching on a part-time basis as a math instructor for the College of Staten Island Continuing Education Program, which is a program that prepares students for the high school equivalency test, improves career readiness skills, and prepares students for college level work. The students in this program come from various socio-economic backgrounds and maintain a true spirit and willingness to learn that has revitalized my own purpose in seeking a teaching career. My long career and continuous outstanding performance has been bolstered by my commitment to students, teaching philosophy and a solid work ethic. At this stage in my life, I am looking to branch out of the teaching profession. I believe the skills acquired as a teacher can be a valuable asset to your company.

I would value the opportunity to meet with you, at your convenience, to discuss my qualifications in relation to your needs.

Thank you for your consideration.

Sincerely,
Tracy Cunningham
