

Re: Letter of Recommendation  
Mrs. Taylur Warthen

March 14, 2022

It is with pleasure that I write this letter of recommendation on behalf of Taylur Warthen. I have known Mrs. Warthen for a year, as she has been an intern in the lower elementary Child Study Team.

Taylur demonstrates the qualities of high aptitude in her field of study and a strong sense of her professional goals. Taylur has cultivated an environment where students, teachers, and colleagues feel comfortable and a strong rapport with each has been established. She proactively meets with students in social skill groups. In addition, she collaborates with teachers and parents regularly. She is observant to listen to their observations and concerns to facilitate the development of plans that tailor meet the needs of the learner. Taylur pushes-in the classroom to offer student support in areas that are noted from behavior data to be areas of escalation.

Taylur led many discussions, shared her ideas and her interpretation and analysis of student evaluation data. She conveys her sensitivity, insight and understanding of children with disabilities who may have difficulties in the educational setting. She captures the essence of assessment data and functional data and is skilled at articulating the connections in conversations.

I enthusiastically endorse Taylur for the position she seeks, as she offers excellent psychological practice and a collaborative mindset with administrators, teachers and support staff. I am assured she will be a valuable asset to your school as she has been to Moorestown Twp. Should you need additional information, do not hesitate to contact me at [ssilveri@mtps.us](mailto:ssilveri@mtps.us)

Sincerely,

Sandra Silveri
