

Coronavirus

What Families Need to Know

February 2020

Coronavirus is a virus that can be spread from person to person.

The Philadelphia Department of Public Health has indicated there are no known cases of coronavirus in Philadelphia and the risk remains low. This has been a rapidly changing situation so, please visit www.cdc.gov/coronavirus for the most up to date information.

How is coronavirus spread?

Coughing and Sneezing

Close contact with people

Touching a surface or object that has the virus on it and then touching your mouth, nose, or eyes

What are the symptoms?

Fever

Cough

Shortness of breath

How can I help protect myself?

Wash your hands regularly with soap and water

Cover your nose and mouth with a tissue when you cough or sneeze - and wash your hands afterward

If you are sick, stay home until your fever is gone for 24 hours

Clean and disinfect frequently touched surfaces and objects

Avoid putting fingers in your mouth, ears, or eyes
